AHFC Energy Programs Weatherization

FY2023 Request: Reference No:

\$4,800,000 50683

AP/AL: Appropriation Pr

Project Type: Life / Health / Safety

Category: Health/Human Services

Location: Statewide House District: Statewide (HD 1-40)

Impact House District: Statewide (HD 1-40) Contact: James Wiedle

Brief Summary and Statement of Need:

Federal U. S. Department of Energy (DOE) assists low and moderate income families in attaining decent, safe, and affordable housing through cost effective weatherization and rehabilitation of existing homes. Weatherization provides energy efficiency upgrades to homes using the latest building science tools to target heat loss areas and correct them. Installed measures must be cost effective. The program addresses health and safety through tune-ups for heating systems, electrical and chimney repairs, and woodstove improvements.

Project Description/Justification:

Weatherization improvements address life-threatening health and safety issues in many homes. Much of Alaska's older housing stock cannot maintain a minimally comfortable indoor temperature. Since April 2008 and by the end of FY2019, AHFC has completed weatherization improvements on approximately 20,462 units including over 300 units in FY2020. Program clients include elderly Alaskan, those with disabilities, and/or families with young children. The average energy cost savings for all homes participating in the Weatherization program is \$1,266.

AHFC Energy Programs Weatherization

FY2023 Request: \$4,800,000 Reference No: 50683

AHFC's ability to properly diagnose and correct problems in existing housing stock through Weatherization helps provide a safe, clean environment to clients.

Projected Outcomes

- Reduce household operating costs;
- Improve resident health and safety;
- Improve durability and longevity of housing stock;
- Replace unsafe heating systems;
- Install smoke detectors in homes; and,
- Install carbon monoxide detectors.

WEATHERIZATION PROGRAM NOTICE BIL 22-2 ISSUED DATE: March, 2022

SUBJECT: BIPARTISAN INFRASTRUCTURE LAW (BIL) GRANTEE ALLOCATIONS

INTENDED AUDIENCE: Weatherization Grantee Managers, Weatherization Subgrantee Managers

PURPOSE: To provide Grantee allocations for the preparation and submission of applications for funding of the Weatherization Assistance Program (WAP) for the Bipartisan Infrastructure Law (BIL) grants.

SCOPE: The provisions of this guidance apply to all Grantees applying for financial assistance under the Department of Energy (DOE) WAP.

LEGAL AUTHORITY: Title IV, Energy Conservation and Production Act, as amended, authorizes DOE to administer the WAP (42 U.S.C. § 6861 *et seq.*). All grant awards made under this program shall comply with applicable law and regulations including the WAP Regulations contained in 10 CFR Part 440.

PROCEDURES: On November 15, 2021, the President signed into law the Infrastructure Investment and Jobs Act (Public Law 117-58), also referred to as the Bipartisan Infrastructure Law (BIL). Under the BIL, the WAP was appropriated \$3.5 billion in funding. At this appropriation level, DOE has opportunity to enact both Enhancement and Innovation (E&I) grants (up to \$25 million) and Sustainable Energy Resources for Consumers (SERC) Grants (2% of allocation; \$70 million). Both E&I and SERC opportunities will be solicited under a separate process. All E&I funds will be distributed. Any undistributed SERC funds will be distributed through formula.

Headquarters Training and Technical Assistance and Energy Efficiency and Renewable Energy cross-cutting activities are also funded through this appropriation. Total funds being made available to Grantees for distribution through the formula is \$3,168,000 billion.

The final Grantee allocations included in this Notice are to be used in conjunction with Weatherization Program Notice (WPN) BIL 22-1: Bipartisan Infrastructure Law (BIL) Grants for the Weatherization Assistance Program, with its two attachments: 1) Administrative and Legal Requirements Document; and 2) Application Instructions, in developing the annual Grant application for BIL grants.

DOE recognizes the challenge and responsibility Congress has entrusted to this network. As we move forward in meeting the funding's purpose, there may be elements that will require still further clarification. DOE will continue to provide additional updates through DOE Project Officers and, as needed, through Program Notices in an effort to keep the Weatherization network well informed.
